

SO2 Salt Fog Chamber

The SO2 Salt Fog Chamber is same as salt spray test but with the addition of SO2 gas directly into the chamber

- Meet ASTM G85, DIN50018 standard
- Capacity: 250 or 900L
- With PID digital control
- NaOH cons.: 5% at 35C
- Brine tank capacity: 175L
- SO2 conc.: 0.067% at 35C
- SO2 tank size: min 180L
- With brine tank, humidifying unit, brine dosing pump, air pressure regulator and filter
- SO2 production, with gas tank, injection line and gas pressure regulator
- Material: fiber glass polyester
- With RS232 for computer control
- With USB data storage (option)

Model	SO-250	SO-900
Internal Dimension (cm)	50x90x60 (HxWxD)	100x100x90 (HxWxD)
Temperature range	Room temperature to 55C, +/-0.5C	
Salt mist sediment	1~2ml/80cm ² ·h	
SO2 concentration	0.1~1%	
Capacity	250L	900L
Power Supply	220Vac	50/60Hz
